

# HOSE 2 GO H2GO

## Constant pressure water supply unit without a battery or pump

**THE HOSE 2 GO** provides a consistent flow of water that allows for both cooling and dust suppression when cutting, core drilling and grinding concrete. Once the user has filled the unit from a tap it's ready to go, giving the user up to 30 minutes of constant flowing water without using a battery or pump.

### CHALLENGE ON THE JOB?

- Getting a constant flow of water for dust suppression
- Tanks being too heavy to move around
- Tanks breaking down
- Running out of battery power
- Limited availability of on site water supply

### SOLUTIONS

- ✓ No pump which means greater reliability
- ✓ No complicated electrics to breakdown
- ✓ No need to manually pump for water pressure you need
- ✓ On the job dust suppression – easy and simple
- ✓ Up to 30 mins constant flow of water
- ✓ Portable only weighs 20kg (44lb) so you can use it anywhere
- ✓ On the job cooling – ensuring longer blade life

### SPECIFICATIONS

Length	325mm/12.8in
Width	144mm/5.7in
Height (placed horizontally)	800mm/31.5in
Weight (Dry)	5.7kg/12.6 lb
Weight (Full)	19.5kg/43 lb
Full tank capacity	13.8L/3.65 gal

Constant flow  
of water ✓

13.8 [3.6 gal]  
litre capacity ✓

Usage up to  
30 mins ✓

Cutting, washing or drilling, the Hose 2 Go provides a water supply without the need to manually pump to maintain pressure.

Carry the Hose 2 Go to job site with the strap attachment

We found the  
Hose2Go very  
beneficial for our  
concrete drilling &  
cutting work

Top notch installations and maintenance

Easily portable, just fill up  
at the tap and go.

#### ACCESSORIES

1

1. Spray Guns

2

2. Hose 3m

3

3. Tap Adaptor

4

4. Screw on quick  
connect hose fitting

5

5. Quick connect  
stop valve hose  
fitting

5

6. Strap attachment
